Music

Live music is one of the things that brings our community to market. We show appreciation to the performer with a daily music stipend. The stipend is funded through small grants and sponsorships.

Yes, play with your food!

We strive to build community at the market through activities that invite participation. At the Chimacum Farmers Market, we host a monthly art activity for children and families.

PT Artscape, a nonprofit that raises funds to support art teachers and art projects in schools
